Curious about technology?

There are many tools available to assist faculty and engage students both in and outside of the classroom. The ITDC is a comfortable place to obtain support with new technology or brush up on existing skills. We can assist you with Blackboard, spruce up a PowerPoint presentation or assist in creating video captures of classes. Interested in blogs, wiki's or Podcasts? These are new tools we can help you explore too. Instructional Technologist Bonnie Hatch is available Monday through Friday from 8:30 am - 4:30 pm by appointment. We are excited about the new tools available to make your teaching experience new and exciting.

Please don't hesitate to contact us!

ITDC

Located in the University Library on the 1st floor to the right of the Information Desk

Roger Williams University
Learning to Bridge the World

ITDC Staff

The ITDC is supported by an Instructional Technologist. Bonnie Hatch has an office adjacent to the ITDC and has many years of experience (over 25 years) in both higher education and technology. She can provide support with any of the software packages listed to the right. Faculty are encouraged to take advantage of this resource. Bonnie encourages you to schedule a time to sit down with her one-on-one in the ITDC, her office, or if more convenient, your office. The ITDC is equipped with an environment that is conducive to learning (private faculty area) and a teaching podium (equipment that replicate the classroom).

Software Assistance in the ITDC can be obtained for the following:

Microsoft Office Suite 2003 & 2007

Microsoft Outlook (Email)
