Apreso—Video Streaming

Anystream’s Apreso Classroom is an automated lecture capture and Web publishing system that produces online versions of the classroom experience for on-demand student review.

Apreso automatically captures and synchronizes the instructor’s voice with visual aids being projected in the classroom. These captures can then be made available directly within a course in Blackboard. If Blackboard is not used, the lecture can still be made available via a website.

Key Features
Automated Lecture Capture
Automatic start and stop operation frees instructors and staff from having to learn new technologies or operate complex systems.

Web-based Output
Instructor remarks and video with in-room computer or laptop and document camera are universally viewable online and accessed via Blackboard or a website.

Content Management System
Blackboard is updated automatically and the lecture is available for the instructor to control availability as with other Blackboard content.

Rooms with Apreso
• CAS157
• MNS 200
• GSB 334
• Coming Soon, Portable Apreso!

There is a user’s guide available at: sharepoint.rwu.edu.

Language Enhancement to Blackboard
• Arabic
• Deutsch
• Espanol
• Francais
• Italiano
• Nedrlnds
• Chinese
• Japanese

Have you wanted to make content available in one of these languages? Is English not your native language?

Every user is now able to view Blackboard in any one of these languages. Courses can be designed to enforce a specific language.

Want more information? Contact Bonnie @ bhatch@rwu.edu.

We encourage suggestions and ideas regarding services we provide as well as topics in which you would be interested.

Please contact any of the staff of the ATS with your comments.

See you next month!

Reminder: Please be sure to make your Blackboard courses available if you will be having the students interface with Blackboard. Also, please review Blackboard documentation and other useful materials at http://sharepoint.rwu.edu.
