What's New at e-ATS?

Volume 1, Issue 4
November 2006

Did You Know? Did you know that we have numerous classrooms on campus equipped with state-of-the-art technology, from Smartboards, Projectors, DVD/VCR Players, Cable TV, and much more to integrate in the classroom environment!

Online Exams Made Simple and Secure

Securexam® Browser is a security application that locks down any web-based tool or platform, transforming school specific applications into secure testing vehicles. Securexam® Browser creates a secure test environment by locking down the Windows operating system on the test-taker's desktop computer, only allowing access to the test application via our secure Internet browser. Giving exams on the internet has never been this easy or secure.

Securexam® is installed in the classroom/computer labs in Gabelli, Feinstein, MNS, SAAHP, and Engineering.

With Securexam Browser instructors can:

- Concurrently use other online quizzing products.
- Integrate external Internet links within tests while maintaining a cheat-proof platform.
- Know right away if a student has attempted to break out of an exam, tried to access other applications during an exam or tampered with the Securexam Browser application

A special workshop will be held for anyone interested in learning how Securexam® works and integrates with Blackboard.

Who's Who at ATS

Shawn Platt, splatt@rwu.edu	x3001
Associate Director of Academic Technology Services	
Scott Lopes, slopes@rwu.edu	x5305
Academic Technology Center Mgr.	
Russ Beauchemin, rbeauchemin@rwu.edu	x3637
Digital Systems Support Tech.	
Robin Levesque, rlevesque@rwu.edu	x3665
Instructional Technologist	
Bonnie Hatch, bhatch@rwu.edu	x3619

New Member of ATS

Robin Levesque, currently one of the Administrative Systems Specialists working in the Datatel group, will be joining the Academic Technology Services. Robin has a Masters degree in Instructional Technology. She will be helping ATS expand the offerings to the community through additional workshops, faculty outreach, innovative technology integration and an additional advocate for improved learning.

Welcome, Robin!

Good News!

RWU and e-academy have agreed to distribute Microsoft Software Products under RWU's "Work at Home" (WAH) rights! Go to our website for more info: <http://rwu.e-academy.com>

Future Topics:

- Advanced Blackboard topics
- Campus Pack
- E-Portfolios
- Content Manager

HAPPY THANKSGIVING!
