The Yearbook Staff is proud to dedicate this year's book to

Dr. Mark Gould

Dr. Gould is a Natural Science instructor who has done more than introduce his students to their courses, he possesses the unique quality of realizing that students need more than a professor they demand more, and he delivers.

Now that the serious stuff is over let's have some fun. The following quotes and thoughts have been comprised by some of his students and colleagues

- Jim Munger:
If you are not interested in the environment, what else is there? You can't teach the process of thinking without thinking about something.
- Don Von Riesen:
Favorite Holiday — Halloween
Quote: "I like 8:00 classes!!"
- Martine Villalard — Bohnsack:
Mark! You cannot have your students set up a quadrat in the middle of a poison ivy field!!
What? Another Columbus Day cold?!!
- Richard Koch:
You can tell when Mark makes the coffee!
Favorite question on his oral exams for freshwater — "Let's talk about the carbonate buffering system"
- Charles Jungwirth:
What little he knows; I taught him!
That's too good to throw away.
- V. Catalano:
Mark's vision of Mark is clopping through the pod in his waders with his butterfly net about to embark on yet another field trip. Mark's (so called coffee) he makes every morning for us to drink.
- Grayson Murphy:
Best known for his dazzling satirical splendor!
- Ten Holstein:
Short in stature, long in commitment.
For someone who can't draw or tell good jokes, it is amazing how well he can communicate
- George Licorilli:
I often wonder if he takes a head count before and after one of forays into the water with his students.
This may account for the shortage of seniors in the Biology Program!!
- Kevin Gaugler and Chris Maki:
This particular beast is typical of this particular environment. In other words, they're out there folks.
Tell me what you know about aquatic life.
- Elynn Corcoran:
Are you sure that you wouldn't rather have two grades for the price of one?

I'm not touching it!

The name is Bond, John Bond

No you can't keep it as a pet, Leigh

Folk-s. I'm outta here

Look in there!

We have the nets, where's the water?

Would you trust these guys?

He's almost under!

I used to be 6'2"

There's something down there?

What are you doing, Todd?
