I am writing on behalf of the Nan- supercharged, high-pressure water. Those are the wealthy people that let the rich pay high taxes to live on and enjoy pristine beauty, property values and hazardous ugly eyesores. Where are the really rich? At Where are all those millionaires? Where are the really rich? At 100 percent, or the bottom 95 percent, or the middle class. The top 5 percent pays 1 percent of all income taxes. The bottom 75 percent pays 13.41 percent of all federal income taxes. The top 5 percent pays 20 percent of all federal income taxes. The bottom 75 percent pays one-tenth of 1 percent of all taxpay-

Brie A. R. CRMC should hear opposition to proposed oyster farm in Tiverton

If the oyster farm is approved, we will have a permanent and hazardous ugly eyesore that will negatively affect the pristine beauty, property values and quality of life for the entire pond.

50-400 by 300 feet, about the size of two side-

3. We have to remember that it is us 60-feet tall data in the industrial park over the next year .

Jeff Stahler Columbus (Ohio) Dispatch.

wind energy collaboration is great idea

While much attention has been paid to proposals to develop wind farms in Rhode Island waters, a group of East Bay communities has been working together quietly to propose buildings to offer ways to reduce the wind power together to address energy issues and dependencies on local sources of energy. This is a positive development in a number of ways.
