Ivy Papers Offer Draft Plan

The Roger Williams Junior College Student Council recently held elections for six replacements on the council. Newly elected members are: Jim Dorenkott, Dean Fish, Joyce Pleasant, George Richard, twin Gross, and Janet Pleasant.

This election was necessitated by the fact that the past members could not maintain the required Q.P.R., to keep their seats. The "Q.P.R." realizes that this was due to the tremendous amount of work accomplished by the council last semester and the exhausting schedule of the members. The "Q.P.R." feels that members should have spent a little more time helping the books instead of giving up and retiring general effort to the council affairs as was done last semester.

At the meeting following the election, the council proceeded to allocate $1,000.00 for the use on the upcoming Student Council sponsored dance, featuring Gary U.S. Bonds. An allocation was also made to Flicks Unlimited, sponsors of the weekly film festival. In the amount of $500.00, it is the consensus of the "Q.P.R." that the films presented by "Flicks" have been valuable contributions to the education of RW students and will continue to be so.

The Council announced that it will require its committees to submit weekly progress reports on the work they are diligently engaged in.

The "Q.P.R." wishes the council the best of luck in its adventures during the coming semester and the exhausting schedule of the council last semester and the exhausting schedule of the council.

Phil Alpha Epsilon

During the past few months Phi Alpha Epsilon has been very busy planning and carrying through with a varied plan of activities. The Friday and Saturday before last week we held a coffee hour, a day of boating and a few other activities open to all those interested in pledging to our fraternity. We also sold bread for the March of Dimes on Sunday, February 5 and collected a total of approximately $200 for the organization.

The fraternity would like to welcome four new pledges in the fraternity Allan Portman, Thomas Harris, David Sherman, and William Kyriakakis and wish them the best of luck in its adventures during the coming semester and the exhausting schedule of the council.

New Coach Ends Favorable Season

Coach Drennan's first year at Roger Williams ended on a happy note as the team defeated Worcester Junior College. The basketball team set a new school record this season by averaging 79.2 points per game. The team scored a total of 324 points in 20 games and set an average of 16.2 points per game.

Coach Drennan is looking forward to the team's improvement and the team's future. The team will continue to work hard and improve their skills.

Official College Notices

"All students are reminded that if they received one or more 'Absent' or 'Incomplete' marks for the Fall semester, it is their responsibility to arrange to make up the marks. The credits for the courses upon which these marks were assigned will not be counted toward the current semester. Dates for make-up exams are to be taken before March 31st or the absent mark will become an automatic F grade. "If an 'Incomplete' mark is other than for failure to take the final exam, the student should inform his instructor IMMEDIATELY, and arrange with the instructor to take the exam.

The Roger Williams Junior College basketball team may now be purchased through the Bursar's Office. In order to insure a large order of May, we must have all orders by the end of March. Rings will be sold at the rate of $30.00 for small rings and $45.00 for a large ring with a solid black. Rings will be made available for all classes and a deposit of $10.00 will be required.

Doctor Saltinito is happy to announce that the students will have Good Friday, March 24th, off as a day for Happy Easter!
The Dean of Students Office has a very peculiar job. It is easy in some ways, difficult in others. In essence, it must prepare the students for a fuller understanding of themselves and their relations to their school work. However, this involves two factors, A DEAN AND A STUDENT. The Dean may act upon the student directly, in person, or indirectly, as through a book.

As we have just mentioned, the Dean is only one factor in this complex situation. The student who learns in relation with the Dean as a guide. The relation between the Dean and the student cannot be subjected to a rule. No matter how many courses a Dean has taken in human growth, the laws of learning, and methods of guidance, he must still depend upon his insight, his sensitivity to the student's difficulties, and the understanding of the student's needs when the occasion arises.

This process, however, is an art. The essence of any art is creation and to carry out this function, the Dean becomes the artist. To create, one must work with a purpose, and trust to inspiration. The artist studies the products and methods of the past and works with these tools. He accomplishes his goal, however, through toll, labor, and pain.

By keeping well informed, the Dean will be able to make a bridge between the school and society. It the student can see no relation of what is being taught to him and how it can be applied in his future life, he will profit little or nothing from it. It is up to the Dean to bring these two worlds together making the student aware of the two are closely and necessarily connected.

Another function the Dean is to attempt to build a bridge between youth and maturity. He must interpret adult life to the student and make him aware of such a change.

When we examine the many other functions at the Dean performs, it is evident that the work is a never ending process. The truly gifted Dean possesses the skill of developing the minds of the students, they much rather have confidence and assurance. Nowadays when my youth again without ceasing to be a man.

We are, as we follow it. Do you remember when life was about the completion of and laughed, and the tiny creature that reminded you of birds discovered? I have this problem if...but no more than one...I accept one?

By informing "The Quill" staff through letters of their interests, problems, and opinions, students can make the paper more sensuous, and the wishes and needs of the "Quill" will be used as an informative agency and as a tool for students, as well as faculty, who desire to contribute literary materials. However, the wish of the "Quill" is not to become a simulated sheet for individuals who wish to transfer their personal hatred by contributing humiliating and discrediting articles. Those who submit articles for publication must sign their names and be willing to defend their articles. No one does not mean that the author's name needs to be printed, for just as a doctor protects his patients, and editor has the ability to protect his contributors.

At times the "Quill" staff will take a position in matters which will be considered controversial but do so only when we feel that the "Quill" by taking a stand will benefit all those concerned, namely the student body. Anyone who disagrees with our position is always welcomed to submit an article stating so.

The "Quill" mailbox is in the library; make it your work for you.

Memo From The Editor

A Portrait Of A Women

Do you remember the years of adolescence when life used to be a constant outpouring of energy and a ceaseless quest for new skill, new experiences and most of the time, the truth itself? Do you remember how you used to fly to extremes without consideration of the means or the ends? Do you remember before you became sophisticated and got to know all about women, how you liked those chosen with the underdog that they would serve later.

The papers further urged that post-graduate deferments (for men selected by lottery) be extended only to occupational areas deemed essential to the national interest.

Finally, the papers differed with the Presidential commission, asking that present 2-S deferments be retained to the completion of students' undergraduate education.

used to shut them out of the genius of your youth. Then that moment in your life when you looked into a girl's eyes for the first time, and discovered a creature that reminded you of birds that lost their way flying back from the birds of something more exciting, more sensitive, more vulnerable, more wild, and more strange.

I can still remember the night, the dance; an endless sea of colors, shapes, faces, smiles and bright eyes; all swirling into waves of joy. I have never regretted anything as much as I regretted that night, not having learned how to dance. Then I saw her, she was sitting across the room looking at me, the smiled, and I felt wild and free as the wind, true as the sun, beautiful as a racehorse, strong as a torrent, and tall as a god or a man. Neither of us could dance, I did not know how, and she could not get up from her wheel-chair; so we talked, and laughed, and the tiny creature led me into a paradise.

Later on, when in this man's diseased territory, I too got infected by the term of sophistication, the under dream fainted away under the vicious attacks of a monstrous mind. But somehow, even now, not only in the worst moments, but especially on the female face, I have ever thought of that girl with regret; because in her eyes that night I discovered proof of my most tremendous capacity, my manhood.

Have you ever considered how many remarkable women have been in the saddle of their own troops, too late. Have you considered the number of trials to which they submit themselves to see if they are man enough to survive them and are never satisfied? It seems that only in the eyes of a woman our timid souls satisfy their craving for assurance. Nowadays when my manhood grows more and more inadequate under the savage demands of my mind, I look girls in the eyes, and hope.
Kappa Phi Kappers

The start of a new semester brought a flurry of activities to the brothers of Kappa Phi. Jim Dorenkott and Irwin Night the pledges all enjoyed.

Is never too late to join. We an added luxury this semester the school bulletin boards.

The banquet given them by the $1200 to show their movies. An appropriate "Flicks Unlimited"
downtown Providence on was.

Joining, is urged to contact

Newman Club

News

Second Semester has brought about many interesting discussions in the different school activities. One of these is the Roger Williams Newman Club.

A few of the subjects being discussed or about to be are the celibacy of priests, inter-faith marriage and pre-marriage. Also, many other touchy subjects of this generation are brought out in the open in frank classroom debates.

One subject of interest which was discussed in length last semester was that of Birth Control.

On January 18 Dr. Johnson, the director of health service at Brown and Pembroke spoke to Newman members and guests at an evening meeting. Dr. Johnson lectured on various methods of contraception and their percentage of success. Also, he touched upon the subject of venereal disease and their effect in pregnancy. At the end of the talk a question and answer period was held. An enjoyable as well as educational evening it was had by all who attended.

Anyone interested in attending meetings or wishing any information about the Newman Club at Roger Williams may contact Mr. Davis or one of the officers Regina Klinsberg, president; Robin Grand, vice president; Robin Girard; recording secretary, Pamela Bernard; corresponding secretary, Muriel Harmett; treasurer Carol Miccolas; sergeant at arms Barbara Kochan; and social committee chairman, Domi Boydway. Congratulations to all the new officers.

With Valentine's Day came a beautiful long stemmed red rose for each sister, Roger Pontes, president of Kappa Phi presented the roses to the sisters in half of all the fraternity brothers.

Thank you again.

Members of Phi Kappa participated in the March of Dimes Bread Sale on Sunday, February 20, in the city of Cranston. Along with other organizations, the girls passed out bread to each contributor of this worthwhile. We received recognition in the Providence Journal on Monday, February 27.

For the first two weeks in March every sister has been busy passing out identification cards to the members of the club. These cards bearing the students name and number identify him as a Roger Williams Junior College board.

On March 5, the sisters of Phi Kappa will help a number of girls from S.M.T.I, who are interested in forming a second chapter of Phi Kappa. If all goes well, Beta Chapter should be formed by September 1967.

Our future plans include a mixer jointly sponsored by Phi Kappa and Alpha Epsilon Sorority. It will be held after our April vacation, so look for the posters concerning event.

Muriel Harmett

Alpha Epsilon Sorority

Alpha Epsilon will celebrate St. Patrick's Day this year by joining with the two fraternities and Phi Kappa Sorority, in a combined Fraternity-Sorority Dance, on March 17th. Alpha Epsilon and Phi Kappa Sorority are planning a jointly sponsored mixer this April 14th. The two sororities hope that this will help to promote friendlier relations between the college's two sororities. Let's hope that it works, we're out numbered here and it might help to make things easier if we were all friends.

A Sister

March of Dimes

Phi Alpha Epsilon fraternity and Phi Kappa Sorority worked together in March of Dimes Cranston Bread Sale. The students went out in groups of two and three to a car. They went house to house requesting donations in return for a load of bread.

The sale was run from the home of Miss Carol Cataldi under the auspices of the State Teen-age chapter of the March of Dimes, Chet Welch-Chairman.

JOBS AVAILABLE IN EUROPE

Grand Duchy of Luxembourg - Austria, Israel and Liechtenstein, Spain, Sweden, Finland, Norway, Luxembourg, Belgium, Holland, Austria, Israel and Liechtenstein. No place students in temporary positions paying $400 a month for the highest skilled work. Blackboard sessions and language practice. and lectures given by European university professors. Although there is usually no foreign language requirement for the jobs, students are given the opportunity to experience native European situations during the orientation period. Blackboard sessions and talks cover such subjects as the language of the country in which the applicant will be working, a student pass available to students enrolled in foreign language courses throughout Europe. complete health and accident insurance while in Europe, and a comprehensive information service about living and traveling in Europe.

LOW COST TRAVEL

The ASIS also offers travel arrangements that greatly reduce the cost of the summer in Europe. Student applicants are also free to make their own travel arrangements to Europe. The ASIS expects that a great many students participating in the charter flights sponsored by the school will want a summer job in Europe. The purpose of the ASIS jobs in Europe program is to provide every college student with the opportunity to see Europe, to increase his cultural knowledge through travel and at the same time to earn and save money. Students with limited budgets would not otherwise be able to see Europe. The student worker also has a golden opportunity to acquire a speaking knowledge of a foreign language.

Students interested in working in Europe should write to Dept. of The American Student Information Service, 22 Avenue de la Liberte, Luxembourg City, Grand Duchy of Luxembourg, for the ASIS 36-page booklet which includes a complete listing and descriptions of jobs available and job applications. Send $2 with each inquiry to cover the cost of the material. overseas handling and air mail postage.

SCHOLARSHIPS

_SOUTHERN FRANCE:_

Five scholarships of $3,000 each are available to qualified students applying to the Institute for American Universities for an academic year at Aix-en-Provence, in Southern France. In addition, a $800 government Scholarship, reserved for French majors, and 25 tuition awards, are awarded each year.

The $3,000 scholarships are divided among majors in French, Literature, Fine Arts, History, Social Sciences and Mediterranean Area Studies. (They are not available to students enrolled in the L.A.U. Summer Program or the L.A.U. Semester Program in Avignon.) Information about the

Hockey Notes

After gaining victories over Dean Jr. College and Nichols College, the Roger Williams hockey team blanked a game since WWII team at the Rhode Island, 5-0. For the boys it was their first home game their third straight victory.

Peter Scull opened scoring for the Betos in the second period on a beautiful stick-length solo dash which was finished off by neatly firing the puck into the upper right hand corner of the goal. The second goal came late in the second period as John Galloway passed the puck to his wing, Roger Davis, but the puck bounced off the skate of one of the RISD defenders and into the net. This put Roger Williams ahead 2-0 and it remained so, as neither team could manage to score in the third period.

Peter Scull, a standout all year, was injured just after the second goal came, and unfortunately, is out for the remainder of the season. He received a broken and separated shoulder. The RISD team was better than most had thought, and it were not for the fine shut out goal tending of Steve Powers, the score could have easily been reversed. Mike Pinnegan played his usual fine game along with his linemates Frank McCaffrey, Jay Brown, and Barry Petersen. The defense of Peter Vermet and Bruce Richardson gave the RISD boys a rough time of it all the way.

Roger Davis

Institute for American Universities is available in college libraries, foreign study offices, or French Study Abroad offices. Applications should be made by air mail directly to:
