Vision 6
NEW VERSION 6.1

Classroom Control Software has been installed on the computer lab/classrooms. This application is designed to assist in the management of computer activity by students during class. You are able to use Vision 6 to manage computers use, share your screen with the class, and take control of a student’s computer to assist with a problem or demonstrate a skill.

Vision 6 also enables questions and answers to multiple-choice questions and the collection of files from the students. The key features are summarized as follows.

Key Features
- **Supervise**: Monitor web browsing or keep an eye on student progress to help individuals and improve classroom time on task.
- **Share**: Demonstrate the teacher’s screen (or any screen in the classroom) to the entire classroom or just a single student.
- **Block**: Web browsing instantly for one student, a group of students or the entire class with Surf Lock plug-in for Vision.
- **Control**: Control student PCs by locking the keyboards, mice and blanking student screens during lessons or discussions.
- **Mentor**: Help any student through a tough problem right from the teacher’s desk or take control of the student’s computer to demonstrate a solution.
- **Manage**: Shut down an entire lab of computers from the teacher station. Remotely start up an application or open a web page on student computers.

**Blackboard Training Schedule**

<table>
<thead>
<tr>
<th>Date</th>
<th>Topic</th>
<th>Room</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fri., 10/20 1-2:30</td>
