continued on p.4

Bad News -- the new software and network equipment were
installed, as with any new software installation, there were bugs and glitches and compatibility problems, but things seemed to be AVOL. Power supply issues arose and the printers seemed
slow. Now computers arrived, but things and
issues were far more complex.

Good News -- over the summer, the New Jersey Friends of
Roger Williams University received a grant from the New Jersey Friends of
Roger Williams University. The grant was for use in upgrading access to CD-ROM technology. The
decision was made to upgrade the software and
hardware for the Law Library's CD-ROM network.

Easter newsletter. Designed to provide you with access to information on library events, available services,
resources, another "new" anything you want right now, right?

And the semester rapidly progresses. You may be getting overwhelmed by new ideas and
challenges.

* NEW * NEW * NEW *
My name is Reference Librarian and I am part of the Public Services Department. My duties include assisting with reference questions, searching the library catalog, and providing legal research assistance.

One of my responsibilities is to provide assistance to patrons in order to help them locate the materials they need. I also provide subject headings for those new to the collection. Additionally, I maintain the library's online catalog and assist patrons in finding the information they need.

I am responsible for the collection's mission: to serve the community by providing quality materials and services. In addition, I oversee the Collection Services Department and ensure that the library's collection is up-to-date and meets the needs of our patrons.

Donato P. Williams is the Director of the Library. Under his direction, the Library provides comprehensive services to the community, including access to a wide range of materials and resources. The Library is open to all members of the community and provides a variety of services, including reference assistance, interlibrary loan, and online databases.

For more information about the Library, please visit our website or call 123-4567.
