Get Involved
Find Out What You Can Give To Others

Make your life meaningful. Find out who you are. Find out what you can give to others.

Opportunities to get involved and to find these answers to questions about your self and society are now available to students of Roger Williams College and in community service and tutorial programs. The Dean of Students Office, under the direction of Mrs. Katherine Loveland, is developing a "laboratory" service which will enable community programs to make requests for student volunteers and tutors and will enable students to become aware of community programs which need their help. Beginning next week the Quill will carry a regular column listing requests made by community programs for student tutors and volunteers.

Presently there are four community programs making requests:

Bristol Public School Tutorial Program
Mr. Raymond Blodgren, principal of Hyatt Elementary School in Bristol, would like to pair Roger Williams College students with youngsters having learning difficulties. Tutorial sessions would occur approximately one to two hours per week Monday through Friday from 9:00 a.m. to 3:40 p.m. or evenings, at the elementary school or on the Bristol campus.

Program for the Mentally Retarded
A program for mentally retarded children is presently being conducted Saturdays in Barrington under the direction of Mike Carbone.

S.T.E.P. (Student Tutorial Education Program)
S.T.E.P. is a "grass roots" program developed by residents of the Prospect Heights housing project in Pawtucket. They need tutors, in the "big brother" sense of the word, to work with youngsters in grades 4-6, one afternoon per week, 4:30-5:30 p.m., and with youngsters in grades 7-9 one evening per week.

The South Providence Tutorial Program
This program presently needs tutors to work at the Temple Learning Center in South Providence.

The primary qualification for tutors and volunteers in any program is the willingness to carry out completely the commitment that is asked of them.

Any student who is interested in one of the above four programs on tutoring and community service in general, is urged to see Mrs. Loveland or the Students Office.

Mrs. Loveland
Dean of Students Office

The Peace Action Committee

The Peace Action Committee of the Bristol Campus Roger Williams College has organized in collaboration with E.L. State Headquarters at Brown University. Several activities for the November Monitor are:

Thursday Nov. 13 - 7:00 tele-conference with Congressmen Pell, Pastore, Tierney, and St. Germaine also Mr. William Mieres, Mr. Forrest Fortier, Mr. John McDermott, Mr. Peter Seidenberg, Mr. Thomas F. O'Connell and Mr. John Riordan. This conference will meet Tuesdays and Thursdays and carry 3 credits which can be used either as English or Social Science credits. The dual approach to the subject of Black Experience and the rules of the major will be discussed. Coffee hours will be set up during this time.

Friday Nov. 14 - 10:00 p.m. Hosts: Providence for Washington. More information available in the Monitor.

In order for these events to be meaningful we must treat the grip of apathy on this campus which means STOP TALKING, START DOING.

You people who stand around tapping in the hallway about the year and how to evade the draft, MOVE YOUR ASS and show a little concern. Lori Silver
Steve DeNofa

Support THE HAWKS!

The South Providence tutorial program is underway once again with the aid of college and high school students in the Providence area. Among the schools participating in this program is Roger Williams. Roger Williams has approximately twenty-five students this year. Thirty youngsters with their school work. The program is run by the Rhode Island League of South Providence with Mrs. Midvile Ericks as organizer. Mrs. Brice is assisted by Mrs. Janice Fraytag. There are also volunteer aids and teachers from the Providence area assisting in this worthwhile program.

The tutorial program is held at the Temple Street School in South Providence. The tutors meet one day a week for an hour and a half. Days that the program is held are Monday thru Thursday. Youngsters from grade one thru five are tutored in the subjects they most need help. The tutors also act as a companion to the youngsters.

Field trips are planned for inter day in the year assuming funds hold out.

The tutorial program can always use additional instructors. Call Cable 4-4336 on Mondays and Thursdays.

Won't you give one day a week to help someone who needs you? For more information stop in and see Mrs. Ericks at Temple Street School, any Mon-Thur, or call the Urban League of South Providence.

Cahlie MacKey

New Courses Offered at Providence Campus

The following are descriptions of Liberal Arts courses which will be offered this Spring semester at the Providence WV campus.

Library selections of the 20th Century. The range of novels, poems, short stories used is international. SPEECH

Prerequisites: None 3 Credits
Dynamic and effective oral and written communication is the aim of this course. Elements of speech which are stressed are: selection and organization of speech materials, the delivery of the speech and the psychology of effective speakers. Intensive analysis and criticism of speech presentation is afforded both the individual and group.

HUMANITIES

Prerequisites: Introduction to Literature 3 Credits.
The students read in translation the later classics of Western Civilization. The texts are placed in their historical and cultural contexts and are representative of intellectual movements. The student must review literary forms so that he can interpret, evaluate, and appreciate the wisdom in the literature and apply it to their own maturation.

Representative of the texts used are: THE PRINCE, PHAEDRA, UTOPIA, and WALDEN.

SCIENCE

PROBLEMS IN SCIENCE 301
Prerequisite: Sophomore Standing 3 Credits.
The course center around an investigation of student oriented modern problems of science. In studying these problems, the student will gain the background necessary to understand and cope with such problems in industry, community, and his personal life.

AMERICAN GOVERNMENT I (FORMERLY POLITICAL SCIENCE) Prerequisite: American Government 301 or permission of instructor 3 Credits.
A continuation of American Government 301 with emphasis on the bureaucratic structure and functions of the judiciary and foreign and domestic policy-making. Several weeks will be devoted to causality and state and local government.

HISTORY OF WESTERN CIVILIZATION I
Prerequisite: None 3 Credits
A survey of the political, economic, social and cultural developments from the inception of Civilization to the Renaissance. Special emphasis is placed on Greece, Rome, Christianity, the Middle Ages and their evolution into Renaissance Europe.

HISTORY OF WESTERN CIVILIZATION II
Prerequisite: History of Western Civilization I 3 Credits
This course is a survey of the history of Europe from the time of the Reformation to that of World War II and its aftermath. Special emphasis is placed on the struggle for democracy against the forces of Fascism and Fascism and Fascism against the Nazi, Mussolini and its aftermath. Special emphasis is placed on the struggle for democracy against the forces of Fascism and Fascism against the Nazi, Mussolini and its aftermath.

INTERDISCIPLINARY COURSE
(Credit is applicable to Liberal Arts elective in Social Sciences)

ENGLISH

BLACK IN WHITE AMERICA 201
Prerequisite: Introduction to Literature; at least Sophomore standing.

3 Credits
EDITORIALS

Letter to the Editor

November third was to be the "biggy." Nations wait­ed with bated breath, senate committees postponed vital hearings, even soldiers themselves were said to feel lapes of motivation because they suspected that a cease fire might be forthcoming on this illustrious day. This was it, (foolishly now it can be seen with the benefit of hindsight) that finally something substantive was going to be said or put into effect. Talk about Great Expectations. The silent leader of America's great silent majority was finally going to unfold the masterful and foolproof plan for peace promised in his campaign.

Our great state was presented with baited breath, senate hearings were said to be going to be held. But only one student somewhere (un­usually on the floor by room 42) that his concern was going to be said or put forth a plan. It was going to be on the door, and the door was going to be opened. 

Then we should feel cold regarding rotten apples.

Mr. Agnew also plays the associa­tions, which is the image of the man and the protégé leaders were all com­mitted to the issues of more funds. Some say communists, because a member of one of the committees is an assorted communist and proud of it. And to think that Mr. Agnew is only a step away from the Presi­dent's money of the future. Mr. noises.

Open Letter to the Administration

We look forward to a successful year in Athletics and Recreation at Roger Williams and hope that we can continue to enjoy articles about the Hawks both on the field and off.

Very truly yours,

John Marzilli
Consultant Editor

On Monday November 3, 1969, much to the disap­pointment of certain parties, the Quill officially took over room 32 in the classroom building as their new office. Since September 29 the students newspaper has been in dire need of space to run a publication in its correct fash­ion. Attempts were made weekly to secure a suitable space to run a publication in its correct fashion. However we did it probably would not be in 32. I say this because there is enough space to run a publication in its correct fashion. And to think that Mr. Agnew is only a step away from the President's money of the future. Mr. noises.

In Search of Bobby Baker

The Providence Senate, in search of a place to meet, have taken the following Letter to the Editor

At a recent Student Senate meeting attended by Student rep­resentatives, they found that there was not a place to meet all the delegations and the public. It seems like the Senate is totally ignoring the valid pro­test of its members. The new office is large enough to house the desks, cabinets, and supplies this paper needs to operate. For so many reasons the space was not adequate, too damn bad. The staff of the newspaper had no say whatsoever in where we could put an office. However if we did it probably would not be in 32. I say this because there is enough space to run a publication in its correct fashion. And to think that Mr. Agnew is only a step away from the President's money of the future. Mr. noises.

Third, there must be some means of ensuring that every student/donor has actually been used to benefit the students. Fourth, for long range planning we must have the second semester budgets and realistic funds which we are going to be asked for the spring semester. This is the only way to this. His new office will be approved each semester. A written monthly financial report, including a nega­tive balance, will be submitted by each organization. This report shall be submitted to the President's office for the final Sen­ate meeting of each month.

Funding is a key element that must be maintained. Third, there must be some means of ensuring that every student/donor has actually been used to benefit the students. Fourth, for long range planning we must have the second semester budgets and realistic funds which we are going to be asked for the spring semester. This is the only way to this. His new office will be approved each semester. A written monthly financial report, including a nega­tive balance, will be submitted by each organization. This report shall be submitted to the President's office for the final Sen­ate meeting of each month.

The one matter still to be de­cided is whether to issue checks or the entire sum of the semester's budget or to itemize them by item from the spring semester budget. Since the Senate retains overall responsibility for any stu­dent activity, and since more in­terest can be secured by keeping the fund in a common account, further funds being itemed funds by item would appear to be the wisest of the two.

The purpose of the above article is found. First, to provide suf­ficient data to properly allocate the funds which will be made available to each group for the spring and fall semesters. Second, in order to function efficiently, we must have accurate and complete infor­mation to project future ends.

Who's Who At Roger Williams College

This year at the Providence campus, several new additions have been made to our delightfully expanding faculty. In the next few editions of the Quill, I would like to acquaint you, the student body, with our new members.

First, I would like to welcome Mr. Benjamin N. Carr. Born in Somerville, Providence, Rhode Island, Mr. Carr is a graduate of Iowa Wesleyan College and is presently teaching Introduction to Modern Business and Business Math. Marketing is his major field of interest.

Mr. Carr believes that Roger Williams will succeed in establishing itself as a high level college because of its drive to reach higher levels in the college standing, and by the warm feelings conveyed to all by both the students and the college as an entity.

Next I hear greetings to Mr. Paul S. Langello. Born in lovely Barrington, Rhode Island, Mr. Langello attended Bryant College (J.B. and New P.R.U., M.A.). He is presently teaching Math I and Accounting, the latter being his major interest.

While living and working in New York for the past few years, Mr. Langello was a Big Brother Volunteer to a fatherless boy and a member of the Junior Chamber of Commerce.

Mr. Langello is impressed by the fact that at Roger Williams the opportunity exists for students and faculty to try new ideas in the non-core and curricular areas. He calls the students "refreshing" for he feels that they have meaningful goals that are reflected in their classroom. Outside of class he finds Roger Williams students enjoyable to talk with and to be with.

Barry M. Port

The Plastic Globe

What do you think about the new librarian Mrs. Camara? Yes, she is very kind and pleasant. In matters of the Heart Library, she is very kind and pleasant. In matters of the heart library, she is very kind and pleasant.

Mr. Carr

ASK LENNY

Question — What do you think of President Nixon's speech on Monday night?

Answer — I would like to say this about that, Blah Blah Blah. Rhetoric to my fellow Americans. It was a typical trickyicky speech, we should get out of Vietnam as soon as possible.

Question — Why does Ron Marritt go out with Barracudas?

Answer — Because of his sexual drives.

Question — Is it true that Gary Difelio goes out with other women?

Answer — Yes, he loves to be MOTHERED!

Question — In the Feb. 3rd issue in the Quill your column stated that we should thank Dr. Long for bringing to the campus an intellectual atmosphere. Was this a sarcastic statement?

Answer — You bet! The sun doesn't shine on rain ad-27.

Question — What do you think of faculty who are currently working on their Ph.D.'s and teach one a course a week (To put bread on table) but hardly shows up because he is too busy working on his Ph.D.?

Answer — This is unfair to the students because he or she is not getting the full benefit of the teacher. He expects the students to be at class on time but will not extend to them the same courtesy. Mr. X, can you please leave your house fifteen minutes earlier than you.

Question — I am in love with this boy and we want to get mar-

Red and the problem is this, he is younger than you. What is your opinion?

Answer — In the words of Paul M. Esber, "Age does not depend upon accumulated birthdays, but the classicity of your spirit and the vigor of the mind. Age is the quality of the mind. If we have our dreams behind and hope is cold, and we have ceased to look ahead, and our ambitions are dead, then we are old, and only then can it be.

Question — In your opinion who do you think is the most unhappy person on the Bristol campus?

Answer — Dr. Corrid (Tonto) because they moved him out of Dr. Long's office and put him with those faculty personnel. Luckily he managed to crawl back to the administration building.

Question — How did your stu-

dent — faculty football game turn out with Bristol?

Answer — Great, we all had a great time. I'd like to thank Mr. Elliott, Mr. Langello, Mr. Carr, Mr. O'Neil, Mr. Nute, Mr. Joko.

THE QUILL

The Business Club of Roger Wi-

lliams College held a special meet-

ing last Thursday, October 30. This meeting was very successful and there was an excellent turnout. The guest speaker was Mr. Noon, personnel director from the Internal Revenue Service. Mr. Noon discussed the aspects and functions of the IRS. The Club's next meeting will have Mr. Herbert Dellon, Rhode Island Attorney General, as guest speaker.

The Business Club meets every Thursday at 11 a.m. in Room 3-02. If anyone is interested, come and attend one of the meetings. In the future, the Club's special meetings will be limited to mem-

bers only.

Senior Speaks Out

On November 5, I had the pleasure of interviewing one of Roger Williams College's senior house students, Mr. Jerry Baum. At this time, Mr. Baum let it be known some of his personal gripes concerning the college. It has become my job to relate his opinions to all concerned. I would also like to announce that any opinions expressed in this article are those of Mr. Baum and not necessarily agreed with by this writer.

Mr. Baum's discontentment is concerned with several topics, the first being apathy of the Bristol Williams College, yet there is no lack of the school, Dean Long.

On November 15, there will be another Vietnam Moratorium. I want to go on record saying I am in favor of the idea, but the day before I went I asked another person if they were going to participate in the activities. The response for the most part was, "you're smart. I'd like to go, but I have to stay home and feed the dog."

You can take your dog and show him up your old wazzoo! Nobody cares. But when G.I. Joe comes back from a year's duty in Saigon, everybody runs up to him and says, "Wow, you made it back okay. That's great. How was it over there? (while I was standing up with your wife)"

The Peace Action Committee (PAC) has set up a booth in the foyer of Classroom lecture building. Next time you see it, . . . KEEP IT! Don't walk by and say "oh how nice" Get concerned! Look at the mascot! If you agree or disagree, do it. Talk with the people there. Ask questions! In other words, get off of your fat, uh let's see . . . what's the term I'm looking for . . . fat . . . fat uh . . . and. Yes, that's the word. Get off it and get with it, gary allrich.

KAPPA PHI NEWS
by Gene Belden, President

The tenth year of a local fraternity is an old time to encounter. From my viewpoint of this situation, I look back a couple of years and see both good and bad days. The good days are those which expose the devotion of a brother to others he helps or even seeks help from. Times are times when a brother leaves school and loses contact with the people whom he helped and wanted with to make a better fraternity.

Anyone skeptical of exactly what a fraternity is should ask no farther from either Kappa Phi or Alpha Epilum. Both fraternities possess a great group of men devoted to helping others. Please ask questions about our organization, there is need to learn our motives until they are fully understood.

I feel that people who laugh at fraternities, because they are not stylish, do so only if they do not see the good we do, such as helping orphans, clubs and our communities.

Some brothers don't laugh at all because they are busy working at our projects of helping. But possibly someday we will laugh at those who need help, only when it is beneficial to themselves.

WHEATON TRIO

Living as we do in an age ruled by the amplified beat of an electric rock band, an occasional journey into the world of classical music can be a rare treat. A sparse but appreciative audience was rewarded with such a treat last Wednesday in the Bristol High School Auditorium.

In a concert sponsored by Roger Williams College, the Wheaton College Trio presented an almost flawless program of chamber music. The Trio, consisting of violinst Nancy Cireillo, cellist Jay Humeston, and pianist Victor Rosenbaum, combined warmth, feeling and sensitivity with a big degree of professionalism. Both individually and collectively they displayed both talent and tremendous respect for their material.

The program opened with the Haydn Trio in A, a compact melodic piece in two movements. It was followed by the Trio in E flat (op. 70) by Ludwig van Beethoven. This second piece contained a hauntingly beautiful melody with the vibrance and power of many of the composer's works. Following a brief intermission, the Wheaton Trio ended the evening with the Beethoven Trio in E minor, a piece in five movements.

Immediately following the concert, a reception was held in the school cafeteria, where the audience was invited to meet the performers.

While the Wheaton Trio put on a brilliant performance, the showing by the students of Roger Williams left something to be desired. The performers could not have asked for a more attention-seeking and appreciative audience. But it is a sad fact that few of the students of RWC cared enough to put in an appearance. It would seem that two important questions need to be answered. Is classical music too different, too urbane, too sophisticated for a generation reared on Elvis Presley, The Beatles, and Blood, Sweat, and Tears? Or is it that the students of Roger Williams are so steeped in apathy towards the cultural programs offered by their college, and indeed towards the very college itself? If the answer to the first question is yes, then we are in a little trouble. If the answer to the second question is yes, then we need to take a deep look into the ideals and values that brought us to Roger Williams in the first place.

“Up To Our Pits”

That's how much snow our narrow-minded skiers are hoping for.

The RWC Ski Club is in the gate with the Bristol Bums and the Providence Bums. The first happening is the 1st Semi-Annual Ski Swap this Thursday.

If you're new to the sport, here's your chance to pick up some GOOD used equipment. If you're ready to move up to something better, you can probably find it at the ski swap, or get a reasonable return on your old equipment. If you just want to cap some skiing or look over the scene — come on down. The Swap will take place on Thursday, November 13, at the Fine St. Student Union in Providence, from 10 a.m. to 6 p.m.

A new membership and organizational meeting will follow at 7:00 p.m., the same evening.

For the uninitiated, a ski swap is just that; anyone who wants to buy, sell or trade ANYTHING that has to do with skiing, gets together and does it.

In addition to the swap, there will be a snow pool for the last inch of snow in Rhode Island, and a ski questionnaire (to find out if you prefer blinds or brumettes or if you like your ski instructors tall, dark and handsome or just handsomeness). See your bulletin boards for more info.

-Wiley Coyote
The AAA noted that at the end of the year, all colleges, teams, and individuals would be evaluated on their contributions to the community.

**MEMO TO THE SOCCER TEAM**

"THANKS FOR THE INSPIRATION"

The Roger Williams Soccer Team was 0-7 for the 1963 season. There were only two wins in the entire season. The team was in third place in the 1963 Athletic Conference. From all indications, this was a certain low point in the team's history. The AAA recognized that in order to build a successful team, the students would have to demonstrate their commitment to the sport.

**HOW CAN AN 8-7 TEAM PROVIDE INSPIRATION?**

The AAA believed that the way in which they expected the challenge of the soccer season to be met was by the students putting forth their best efforts. The AAA recognized that the team had the potential to be successful if they were willing to put in the necessary time and effort.

**STUDENT PARTICIPATION**

Well, the student body of Roger Williams College was not missing the bright spotlight of a scheduled event for the near future. Every segment of the student body should be encouraged to attend the games. Those high school seniors should be given an opportunity to participate in the team's success.

**BASKETBALL HEADLINES**

Mark Cavanaugh (6'1") Mark banks from Barrington, R. I. He played guard and was a fairly good player.

Brian Loizzo (6'3") He is a forms-High School player and he played service ball in the army. He will contribute to the team as a guard.

Craig Santini (6'3") Craig comes to us from Barrington High School. He will be used as a guard.

Maurice Meyers (6'2") Maurice plays at Barrington High School in Newport. He is an excellent player.

**PROGRESS THROUGH HARD WORK**

An idea came up one day when a freshman, Al Podolik, overheard some basketball players talking about intramural sports. AI asked the question: "What's it all about?" He was a member of the Roger Williams College?" Ron Martel, Senior Class President at the Providence, R.I., decided to write to Al that football was a great enthusiasm, due to lack of interest from the student body, it could not be successfully instituted.

Al then asked what suggestions Ron had in mind to stimulate interest in the students and who would help support the idea of starting a team? Ron was well known for his superb efforts and perseverance in trying to bring sports and athletic competition to the entire student body. Ron and America's natural resources and wildlife.
