S.R.W. To Get

Gould Island
Roger Williams College has joined the efforts of other public and private institutions taking advantage of the Navy's departure from Narragansett Bay. According to Roland Shappy, Administrative Assistant to President Gauvey, the College is in the process of obtaining the southern half of Gould Island from the Federal government's Green Island Division.

The island, located off the east shore of Narragansett Bay, is four miles due south of the Narragansett Bridge and is one of the most beautiful of Rhode Island's barrier islands. It is only two square miles in size but is one of the few remaining undeveloped barrier islands in the area. The College plans to use the island to provide the island with electricity and other utilities. If the bid for Gould Island is successful, the College plans to use its portion as a research station for the various marine sciences. In addition, a 300 foot long building located on the north shore of the island will be restored for use as the new dorm for undergraduate children. The northern half of the island has already been assigned to the State of Rhode Island which plans to turn the property into a state park and recreation area.

Shappy commented on the current status of the project, stating that the U.S. Navy has accepted Roger Williams' bid for the Gould Island property and has already begun to move the area to the College. Though highly optimistic, he warned that "The Navy will not act until we have an acceptable offer for federal conversion has been received." Shappy also noted that financially Gould Island is already "in the black." As surplus land, it is free of federal and state property taxes.

WHAT WILL THE COLLEGE PAY FOR GOULD ISLAND?

Mr. Shappy also explained that the college may be faced with the charge of building certain facilities on Gould Island. "The only expense to the College is the current status of the project, including the administration of the College. On the topic of the new student union, the president noted, "The completion of the Student Center is anticipated about the middle of March. This does not mean we are using the dining service area but rather that the functions on a limited basis. The current plans call for additional concerts, or beer bashes."

ZANNINI—After we have a gymnasium, that will be the current dining facility available. What does the College have in mind for the enrollment for the second semester, the use of this building will be planned for the benefit of the students attending classes on this campus as a result of the changes that will be taken place in higher education.

ZANNINI—Is it true that the College may lose its accreditation if a gymnasium is not built in the next few years?

ZANNINI—With regards to the physical education facilities it is a myth if one says that the College cannot keep its accreditation because it did not have a gymnasium. A gymnasium could hold another physical activity, such as a group in keeping the present accreditation, however, it may be unsound to think that a gymnasium will be of no use.

QUILL Talks to Vice President

by Jack Kelly

In a recent interview Frank Zannini, Vice President of the College, discussed some of the current projects now underway by the administration of the College.

ZANNINI—Are you coming up with a more rapid pace than you did last year?

QUILL—When R.W.C. built its Bristol campus it was mainly for Liberal Arts Students. The College in the last three semesters has shifted into a large number of engineering students to Bristol. Is there any way to bring students to students to get away from the traditional careers to today's highly modernized society?

ZANNINI—The College has re-assuaged its mission each year and try to anticipate the needs to fill the gap. For example: When the College was first proposed to the Liberal Arts College. Now you see there are business and Engineering students attending classes on this campus as a result of the changes that have taken place in higher education.

QUILL—Is it true that the College may lose its accreditation if a gymnasium is not built in the next few years?

ZANNINI—What does the College have in mind for the enrollment for the second semester, the use of this building will be planned for the benefit of the students attending classes on this campus as a result of the changes that will be taken place in higher education.

Hoopsters Win 17th

by Dave Hubbard

Playing one of this season's rare Bristol home games, the Hawk basketball team met the Trinity College Saturday afternoon. New England College Hawks for the second time in less than two weeks and once again applied the pressure needed for a 73-63 victory.

The win pushed the RWC cagers' record to a solid 17-4 mark and represented the Hawks' 10th straight victory.

As has been the case all season, the Hawks quickly jumped out to the lead in the first half behind the field goal shooting of Jim "Hoppin" Hopper and Dwight Datcher. Hopper, averaging over 13 rebounds and 11 points in each of his last 10 games, was the key player during the first period with 11 points and eight rebounds, as Datcher added 11 points and nine rebounds. At the mid-mark it was Roger Williams 40-25.

The Hawk lead opened to as many as 18 points in the second half before the Bears finally found the mark.

Students Assistance Service

The Student Assistance Service is an organization run by and for the students and has as its prime function the following services: housing, employment, financial aid, health, legal advice, planned parenthood, student handbook, birth control and V.D. referrals, counseling, formal and informal guidance, volunteer programs and general information.

Students have access to these services by going to the Student Assistance Office 0-126, adjacent to the QUILL Office. Please feel free to drop by and find out what is going on for you. Staff and support people are here to help if financially supported by a small portion of your $25 activity fee, so take advantage of this resource.

Information and new ideas are vital for our continuing growth. If you can help S.A.S. help you in any way, please stop by with your thoughts.

ACLU to Take on Senate

At an organizational meeting of a newly proposed American Civil Liberties Union affiliate at the College, Peter Greenberg and Robert Zannini, two students, by their address and motion to accept a dual Senate presidency. Peter Greenberg, however, is opposed to the idea, and feels that there should be only one ACLU. Zannini was undeterred at this point as both candidates have not appeared together at one time.

Although Peter was not present, several of the Senators did stand and speak positively for him. They explained that whatever happens now will possibly be the result of many forces and impulses heretofore not recognized, and may indeed signify a different form of organization which have just now come to light.

Zanini Interview

preclude the College from getting re-accredited.

Q U I L L — With present defense cutbacks the Nike site, which is adjacent to the College's land will be closing down its operations. The government has stated the land will be for sale. What, if any, is the College's interest in this situation?

ZANINI—As you have probably read in the newspaper, the College is very interested in acquiring the Nike Site. Although at the present time there are not firm plans for the use of the property, it will provide the opportunity to expand our recreational facilities. For example: hockey, tennis, and basketball will be popular at this particular time, and a feasible plan may be to work out to provide for a recreation area along with the necessary parking. Again, I emphasize this is very speculative at this time. The building of a gymnasium and a pool is still in the planning stages.

Vets Need Support

by Chuck Winn

For the next few months I will be writing a weekly column on the subject of state issues being proposed in this year's session of the R.I. General Assembly. Primary emphasis will be on those issues which I feel are of the utmost importance. One of my main concerns is to get an interest in State and local government among younger voters, as these are the areas where change can occur (after all it is an election year.) Most importantly we need to get our members elected so that we can insulate our position. We are working in that direction. We have a large membership of students, and we are working in the direction of the student body. We are working to get our members elected so that we can insulate our position. We are working in that direction. We have a large membership of students, and we are working in the direction of the student body.

Senior Class News

The most recent meeting of the Student Class Officers set the date for the dance to be sponsored by the Senior Class on March 2, at 9 p.m. It will be held in the Bristol campus. Admission, 50 cents will be charged and food, beer and wine will be served. The dance is open to all students, faculty and administrators. Andy Nomine and Don Ansaldo are seeking much needed help on the yearbook in the photographic and advertising areas. Get in touch with Andy or Don through the Art Department in Bristol. The Photo Club has been asked to supply employment lines and houses for non-D.R. businesses and from personal experience I can honestly say the attitude of the employees was "Fuck the Viet's Leave the Vet." From a moral point of view the people of Rhode Island owe the Vietnam Era Veterans a bonus simply by the fact that a majority of R.I. Veterans were supported by the government. We are asking the government to support the Vietnam Era Veterans. From a moral point of view the people of Rhode Island owe the Vietnam Era Veterans a bonus simply by the fact that a majority of R.I. **Trinity Rocks On**

Last week, over the wall of excitement that followed the flash of a light show, Trinity Square Repertory Company opened the sixth production of the season, *What's Going On?*. This is a show that everyone will like. It is my opinion, that there are moments of perfection depending upon the mix with which one is dealing. Last Friday evening I saw a production that came close to what I believe to be the highest level of perfection possible for college theatre. This performance came in the form of "Days Ahead" by Lanford Wilson, perhaps best known for "The Rimer's of Eld". "Days Ahead" revolves around one character, an older man, who at one time earlier in his life decided to sell his true love up behind a wall, however this wall may be mental rather than tangible property; the man returns to this wall periodically to visit and inform his love in the outside world. The subject of the play concerns the last of his visits. It seems he has decided to release his start and over again be the back of his mind is the real fest that she is dead.

To set the mood, "the girl", played by Carolyn Jones, steps onto the stage of this play. She was on the scene at the time the man made it with she. It seems that everything was going well and the man was not able to put his foot down. This is a show which is seldom in Perfection and should not be missed.

Perfection is rarely, if ever, attained in professional theatre, let alone college theatre. It is my opinion, that there are moments of perfection depending upon the mix with which one is dealing.
