School Plans Crack-down On Dormitory Unrest

By Douglas Gingrrela

After a relatively normal October and November, the dorms, according to an unannounced breakdown in student behavior, were opened. Dean of Students, William O'Connell said that "there was a significant increase in the amount of damage and general rowdiness. There seemed to be a lack of concern amongst students for each other and for College property. Also, student morale in the dorms was not at an ideal level." In an attempt to relieve these conditions, O'Connell has decided to implement some new plans, and strengthen some past ones.

In order to try and re-establish a certain state of behavior in the dormitories, O'Connell and the Housing Office have decided to bring the Resident Assistant program into Aqueduct Hall. The Hall will now have two night managers and there R.A.s will join them.

In addition, there will be nine new R.A.s in the on-campus dormitories, replacing eight that have resigned or been released. "All these R.A.s will go through an orientation schedule, with the returning R.A.s, of which they will be made aware of a more controlled Residential Policy," O'Connell said.

"This more controlled policy will include, but not be limited to, stricter enforcement of rules such as damage regulations. Anyone apprehended for malicious damage, such as throwing a snowball and breaking a window, will be immediately and minimally be asked to leave the dorms and it could go on their permanent record for the past they were simply fined," he continued.

O'Connell also plans to have the R.A.s take a more active role in student activities and student life. Each Resident Assistant will be required to sponsor an activity for the college community during the spring semester. "The activities that they will sponsor will be of a social/educational nature - programs in which professionals in the community will be asked to share their expertise in their field with the college community. In this way, I hope to have the Housing Office play a more active role in the area of student life.

Dr. Turner, a freshman on the Hawks, has shown how shooting a fire extinguisher, will be immediately and minimally be asked to leave the dorms and it could go on their permanent record for the past they were simply fined," he continued.

Dorm Government

Elections To Be Held

By Kimberley Newton

Last semester, Dorm Government suffered what could have been a great loss when both the president and vice-president resigned from the Executive Board. However, the government appears to be doing fine, considering the circumstances. President Erik Groft resigned due to a professional opportunity in the law field and also for personal reasons. Vice-president Bob Witten, resigned after he was permanently removed from the dormitories after causing malicious damage to the second floor.

Because dorm government left both its president and its vice-president, Parliamentarian Doug Gingrrela is Acting President and presiding over the Government until a new Executive Board has been elected and sworn in. Elections for the position of president and vice-president will be held on Monday, February 5th and Tuesday, February 6th in front of the cafeteria during dinner. All candidates must pick up nomination forms from either Doug Gingrrela in the Quill office, or from Paul Nalette in the Housing Office. Any candidate cannot be on either academic or disciplinary probation, and they must be full-time dormitory students. Candidate for the presidential position must have signatures from dorm-mates present on the nomination forms and vice-presidential candidates must have 50. All signatures on the forms will be taken to make sure that they have not signed their name.

Almeida and Taxes Discussed

By Rizzini At Open Meeting

By Bill Winter

The proposed purchase of the Almeida Courts apartment complex, the RWC tax problems with the town of Bristol, and incoming foreign students were the major topics discussed by President William Rizzini and others at the monthly Open Meeting, held on Wednesday, January 30, in the Bay Room.

The current status of Almeida Courts was the first subject brought up by Rizzini. He said that the possible purchase of off-campus housing was in "forthcoming at this time," and that RWC "is concentrating its chief efforts on Almeida Courts, he explained, because the other two major options, the Bristol Motor Lodge and apartments in Warren have been ruled out. The Bristol Motor Lodge, which is currently up for auction, was considered too expensive due to the high cost of conversion, and apartments in Warren were rejected because of the distance.

Rizzini said Almeida Courts, tentatively 2.00 million dollars, is approximately one half of what it would cost to build new dorms on campus. Rizzini said that if RWC does purchase the apartments, some system of financing will be worked out.

Dean McKenna spoke out on the advantages and disadvantages of Almeida Courts. Among the pluses were the proximity to the campus, less than two miles, the recreation area that it offers, easy security because of only one entrance, and the possibility that the school can sell it if conditions deteriorate.

On the negative side, he pointed out the possible impact on the local community, the disadvantage of having only one entrance, and the potential for noise that could be generated.

On Thursday, the town held its Regular Meeting, at which time a $92,000 loan was approved for the purchase of two new dorms.

Rizzini also revealed that RWC was having problems with the town of Bristol over taxes. The college has brought suit against Bristol in an attempt to get out of paying $32,000 that they feel the town is strongly trying to collect.

Rizzini explained that a Bristol tax assessor was misunderstood about the limit to which the college was tax-free, and mistakenly charged the college $32,000 for the Kaiser Aluminum buildings. RWC paid the first installment protest, then, at the advice of its attorney, dropped the case.

The college will sit down and discuss with the town the tax formula used, which is different than with Almeida Courts. Rizzini said RWC may be able to work something out.

Television Antenna Installed In New Dorm

By Jane Scott

Students returning to dorms this week will find some new wires running through their rooms, and perhaps even a totally new outlet to plug their televisions into for much improved reception. When installation is completed sometime in February, there will be a $15 charge per semester, or $25 per year, for students who wish to use this new service.

The workmen reaching the halls of the new dorm are from Atlantic Antennas, and live a result of an idea Dorm Government came up with in October of 1978. It was about then that Eric Gross, Dorm Government's former president, proposed the project of placing a television antenna on top of the new dorm to improve poor reception, especially on the lower floors, which are often limited to only one channel.

During installation, Dorm Government Rep. Mike Keegan, and advisor Paul Nalette took over. Keegan and Nalette met with vice-president McKenna, and later with the Budget Committee, to discuss a loan from the college to Dorm Government to pay for immediate installation of the antenna. The Budget Committee was opposed to the $6000 loan for two reasons: 1) They could not find any money that hadn't already been budgeted. Then the Dormant, the Controller and also a member of the Budget Committee, came up with the idea of taking the cost out of the Repairs and Replacement Fund. This fund is used only for work on the dorms, and would be sufficient.

The budgeting was approved Thursday, January 28. Atlantic Antennas looked at the building on Friday. Work began Saturday, January 28. Although Dorm Government wanted all work continued on page 5.

FOREIGN STUDENTS

TO ATTEND RWC

By Bill Winter

From such distance countries as Iran, San Salvador, and Japan, to 40 international students will be coming to RWC to attend classes during the Spring semester.

Although this is a sudden increase in numbers over the 10 to 20 foreign students that RWC has averaged in the past few years, Dean of Admissions Robert Nemecek claims that this does not reflect a sudden interest in the college by international students. We have been working on this since 1969," Nemecek said, "and I personally feel that it is still in the beginning. When they arrive here, they will become familiar with our system. There is the question of how far the college will commit itself to the international student. There are the differences in educational systems between here and abroad.

Bookstore Expands

By Jane Scott

During the Winter Intersession, a 40 foot addition was made on the bookstore, and it was estimated the extra cost to the college at $3,000.

The addition of the, bookstore, Edward Ragosta said, "We've been trying to put a 40 foot addition on the last two past couple of years. There's always a need for more space.

We are quite happy with the addition. McKenna, "We couldn't have gotten the money for the beginning. The college did a lot of research when the Student Union was being built and we were told our bookstore would be large enough to accommodate a student body of 3,000. But now it's obvious we do need more space. After observing the area next to the bookstore, we decided to go ahead with it.

Due to the extra space, the stockroom and office area behind the gift shop can now be expanded to relieve congestion there. The bookstore's back room paper sales will be spared as much as possible. We will begin moving materials from there to the new Space.

Ragosta said, "Although we naturally could use much more space than this, I doubt there will be more expansion; unless enrollment goes up to 4000 or 5000."
Dorm Space Shortage Is National Problem

WASHINGTON, D.C. (AP) - You pack your bags for school, land on campus, and discover that dorm space, once assured, is now in doubt. After waiting in limbo during registration week, you find yourself ransacked into a dorm room with two other people, which is what happened last year at RWC, or in an off-campus dormitory, like this year.

The dorm space jam scenario was more common on more campuses than just RWC this year. Now the experts are predicting that the problem will persist into the foreseeable future, for most colleges in the country.

One reason is that colleges and universities expect enrollment to decline through the next 10-12 years. They're reluctant to build expensive dormitories to relieve the current crowding because those very same new dorm rooms may be empty by the time they're completed. Because of construction costs and current high mortgage rates, though, the schools will still have to pay for those new rooms.

But the other major reason for the continuing shortage is rooted in federal policy, or in the lack thereof, that contributes federal funds for classroom space only.

The result is that some schools have employed creative means to get around the federal policy. Ithaca College in New York, for example, ripped the living spaces out of several dorm buildings, several stories high, and converted them into classroom space so the buildings could qualify for subsidies under government aid programs. There is, as the result, a shortage of dorm space on the campus.

The squeeze in Ithaca and other college towns tightened during the 1977-78 school year because enrollment temporarily increased. All told, there was a four percent enrollment increase last year. With inflation making dorm fees more attractive in comparison to off-campus housing costs, moreover, waiting lists grew even longer.

Housing specialists are counting on some broad social trends to eventually ease the dorm space problem. A spokesman for the American Association of State Colleges and Universities notes that the enrollment peak is changing, that freshmen will be a smaller and smaller percentage of the whole student body. So even longer, though older students are still not attracted to dormitories, preferring off-campus housing. As the average age of the student body increases, then, the schools see a slackening demand for dorm space.

Yet even that may not help if the energy crisis gets worse or even persists. The AASCU worries that gas rationing or the continuing increase in gas prices may persuade more "older" students to live on campus to economize on transportation costs.

Washingto, D.C. (AP) - "I don't think anybody knows why it is still this way," complained Dennis Shavlik, associate director of the American Council on Education's Office on Higher Education. Shavlik was referring to a new survey that, once again, shows that faculty earn more than their male counterparts at all levels. The report, conducted for the 1977-78 year by the National Center for Educational Statistics, found women earned $3,000-5,000 less per year than men.

Of the total 386,044 faculty positions at colleges and universities last year, 48 percent were held by men. Women held only 25 percent.

Things haven't changed much from 1973's study. The average women's salary increased $700 annually, but men's advanced an average $1,000. The number of women faculty members advanced 4 percent.

Higher education leaders generally aren't surprised by the NCEES statistics. Although federal and state legislation of recent years has been aimed at narrowing the pay and promotion gap, there's been little, "across-the-board," progress since 1970, says Suzanne Howard of the American Association of University Women.

Howard feels the discrimination is part of a "wider societal problem," supported by attitudes that women should remain in the home, and that women's work does not carry the same value as men's.

Fraternity Starts At RWC

LAMBDA PHI ALPHA, Roger Williams College's new Fraternity, organized by Bruce Pickard, will make its debut this semester. It's the first pledge class to start February 5th. With an idea over one and a half years ago, and long hard work, Bruce Pickard was ready to start formulating his ideas and plans. He started by hand picking the following High Zeta members (officers board): Dave DiAntonno V-President, Tom Menard-Secretary, Mark DiGiovanni-Treasurer, Gerry Reynolds-Chairman, and Murtha-Pledge Master.

Having High Zeta meetings every day, 5 days a week, the High Zeta began growing closer, thinking more alike, finally, all thinking as one, "Part of my goal has been achieved," claims Bruce. The only part left is to install to the members of the Fraternity, the brotherhood they have for each other since we became part of this fraternity.

The Fraternity will be holding meetings on February 2, 4, and 6 to discuss their Fraternal policy and to answer any questions that might arise. The times of these meetings will be 2:30 p.m. The Fraternity is also co-sponsoring, with the Social Committee, "A NIGHT WITH THE FRATERNITY," Fraternity Banquet to be held in the cafeteria on February 26th from 6:30 p.m. until 11:00 p.m. Proper dress is required; nobody will be allowed in with jeans.

National Trend:
Lady prof's still earn less

WASHINGTON, D.C. (AP) - "I don't think anybody knows why it is still this way," complained Dennis Shavlik, associate director of the American Council on Education's Office on Higher Education. Shavlik was referring to a new survey that, once again, shows that faculty earn more than their male counterparts at all levels. The report, conducted for the 1977-78 year by the National Center for Educational Statistics, found women earned $3,000-5,000 less per year than men.

Of the total 386,044 faculty positions at colleges and universities last year, 48 percent were held by men. Women held only 25 percent.

Things haven't changed much from 1973's study. The average women's salary increased $700 annually, but men's advanced an average $1,000. The number of women faculty members advanced 4 percent.

Higher education leaders generally aren't surprised by the NCEES statistics. Howard feels the discrimination is part of a "wider societal problem," supported by attitudes that women should remain in the home, and that women's work does not carry the same value as men's.

Dormitory Unrest Plans

continued from page 1

student's point of view, O'Connell said.

O'Connell is also taking several steps to deal with and help curb the problems on the campus. He, in other words, has meetings with his student officials about the liquor problem: drinking standards in an attempt to enlist their support. He has also arranged to have alcohol seminars in the dorms for all of the residents. Entertainment in the Rat has been changed to Thursday nights to compete with Beat the Clock nights, and other things in the planning stages.

"I'm optimistic," O'Connell said. "I believe that over the past several years we have improved Residential life considerably. December was a small step backwards, but we have learned from the experience and we will profit by it."
Bermuda wants to know: Were they really Tic-Tacs?
By Lynda Parker

While of RWC’s present administra-
tion, Mr. X was a 20 year old who
directed an occupational therapist at
Rhode Island Hospital but also felt
his friends until after the wedding. Who
has an identical twin brother, Donald, who lives with
and spent forever in a search of
All My Children. He is now
and who presently serves as Director of
Bermuda at the 1

This issue’s Mr. X is a 20-year-old
who enjoys speaking Spanish and
minored in Italian at Central
Connecticut State College. He
received his B.S. in Chemistry at
the University of Connecticut, in Higher
Education Administration. He also
worked there part-time in the
Financial Aid department.

Born in Hartford, Mr. X has
spent the majority of his life on
the East Coast, residing in
Bristol on Old Beach Road. He
loves the water and whenever
the nighttime temperature stays above 75
he can be found three out of five
nights of the week at the beach.

But besides loving to
Mr. X also spends a
great deal of time par-
ticipating in various sports. During
basketball season he can be found
running the court twice a
week at the Downtown
in Bristol, and has
taken up a large segment of his
time. Besides his love for
participating in golf, where he claims
he’s just OK, in tennis, where,
although he’s
better
he says, “I’m just a beginner.”

As if that is not enough,
the man has a Swiss
pocket. Mr. X once spent
11 hours inside a customs
in Bermuda, while
exaggeratingly participating in
his Tic-Tacs to determine whether
they could be found on a
visit to Bermuda, he has traveled to
quite a few other warm climates, inclu-
ding Hawaii, during this spring to travel to Hilton Head Island.

For Mr. X, an evening that would
qualify as a good time would start
outside on the water, but that’s no
biggie, this would be followed by a
very good dinner at one of his
participate in another of his

Protect Yourself from Rape
By Lynda Parker

Rape is one of the most violent and feared crimes found in our
society. Yet it is one of the least reported, and one of the hardest
to prevent. It is a crime that all women are susceptible to, including
colleagues, friends, and even family members in which women
control for one’s self is taken away. For this reason, it is important to
realize some important ways to prevent the occurrence of rape:

1) Rape is the fastest growing violent crime in the U.S. It was
estimated in 1976 that a rape occurs every 4 minutes. This figure
seems to be increasing.

2) Rape can happen to anyone. In Rhode Island, as in the
other states, cases have been reported involving children as young as
five years old, and women as old as 86. 3) 85 percent of all rapes are
reported, and 95 percent of all gang rapes are pre-mediated.

4) The majority of rapes occur in either the victim’s or the rapist’s
home, while the remainder occur in vehicles, woods, parked cars, bars,
and alleys.

5) Two-thirds of rape victims are acquainted with their
dassailant.

6) 97 percent of convicted rapists fall in the category of normal
when given psychological tests.

For most students, carrying
publishes a double major, especially when they
are in marine biology and chemistry, is
nearly impossible. But for one
student on this campus, Roger
Wilson, it doesn’t seem to be such
an impossible feat.

A Dean’s List student, Roger
does spend a lot of time studying, but not so much
that he isn’t able to par-
ticipate in other activities. He now
resides at R.A. of unit 6, where he is
highly liked by everyone in the
unit. He also participates on the
swim team, and when the weather: warms up, he can find early in the
morning running a brisk 3 or 2 miles.

From Pennsylvania, Roger enjoys
canoeing during the warmer summer
by himself or with one other
person, preferably a young lady.
He’s very active with other
groups and is a very pop-
ular member of unit 6 or helping
the girls basketball team by providing a
tiny competition.

In all, Roger Wilson is the kind
of guy who is always on the go. He goes
to bed late and gets up early. But in
everywhere there is always time for the errands that make Roger
a nice guy to know.

You Don’t Have To Talk To Your Plants
Because They Can Read Your Mind
By Jane Scott

The Secret Life of Plants
Peter Tompkins
Christopher Bird
Avon Books, New York, $1.95

Walking by both the doors, it’s
to find a window that doesn’t
have at least one plant looking out. On
even closer inspection, some
rooms resemble fruity indoor
gardens.

The presence of just one
plant has an effect on entire
room. It adds life. The authors of The Secret
Life of Plants claim that humans are
basking in the most comfortable
when living with flora. But what of
the plants? feelings, towards living with
humans? Yes, feelers.

It is no longer just a case of
talking to your plants, talking to
them, or even babying them. This book
equate that since plants can read
their, there’s no need to
out loud to them.

With the advent of the
electrodes of a galvanometer, usually used
to record levels of emotions in humans, to
plants, it was definitely observed
mood. When the experimenter even thought of
taking a burning match near a given part of the plant being
tested, the recording dial went wildly,
giving the kind of readings found when
he was experiencing extreme stress. The
scientists concluded the plant
sensed its danger and reacted to it.

Plants also become very
to the emotions of others. By monitoring
the plant and the owner when they
are apart, it’s seen that the plant reacts
to all emotional stressful of its owner.

When trying to explain
phenomenon, this sensory aspect in
plants was compared to ESP in
humans. But since it could not be
ESP, it was considered to be
without anything, perhaps even an inherent
quality in all beings, including
man.

So think kind thoughts to
your plants. That will help them
grow strong and healthy as much as all
the water, fertilizer, and attention
them. With your plants will
grow stronger and more lush, perhaps even an inherent
quality in all beings, including
man.

Intercession: you had to be there
By Kimberly Newton
Ox the first night of Intercession
Dracul drew his teeth from the pale
neck of the Scottish damsel, when
the commercial came on, leaving
my heart thumping wildly and
my eyes dancing forward. I closed
my eyes, with the force and speed of
hot molten lead. My body reacts in two
different ways when I’m really terrified,
and Dracul does it to me everytime.

First my heart pounds so loudly
that I am afraid other hear it, and
my hands get clammy as well.

But what’s the problem, though,
that he gets so clammy that they
don’t know he’s there, and as soon
as so as the commercial came
back on I felt my eyes open.
The other problem with sweaty hands is
that they slip and slide over the
(because of wet) cross. Finally, those
operations, which was exactly what
happened that night.

When the door opened I
was flooded with darkness, which made
my normally bold reactions start up
at full speed again. I was mad.

This was the fifth time
this on first night of
Intercession that the lights had
mysteriously shut themselves off.
Because I was the only one
unit, I came to the logical
conclusion that it wasn’t a unit
and also since my coldness,
I can see anyone
to the tower states and
into the unit, and since I saw
nobody, I concluded that no one
came in; even if one of the guards
snuck up by my highly acclaimed
mirror, I would have heard them
fidget their keys, like they usually
Do. So, folks, my only
conclusion, a very logical one in my
opinion, was that something evil
was lurking in the darkness of my
lounge, and I was what turned
off my lights.

The event was drizzling off
my hands as I wrung them in
and around each other, and I knew
they needed washing very badly, but
first I had to turn on the lounge lights
to wipe away suspicions of someone
being up there, but to do that
I needed a weapon.

Armed with my plastic gun,
the in the big ol gun, I wondered if
the plant would nudge the evil being,
as much as it did me. The
plant was so ugly I never wished it,
always bearing: it would die, but
so somehow it managed to survive. I
could never actually bring myself
to kill it directly, I felt kind of sorry
for continued on page 6

Roger Wilson Is Not All Wet

By Lynda Parker

Dave Bodwell.
times, gambling. The evening would
end with a change out of and a
late night swim.

All in all, this issue’s Mr. X is
what you would call an American
nice guy. He’s the kind of guy who
helps old ladies across the street,
coaches Little League and helps out
with the Boy Scouts. He’s quite
popular in Bristol, and highly
respected. Much of this is due to his
love for the town. Asked if he
remembers leaving Bristol or RWC,
he commented, “It will only be for
a warmer climate, possibly Florida, or
Southern California.”

“By your hand law,”
Dave Bodwell, it’s a pleasure
having you around.

For most students, carrying
a double major, especially when they
are in marine biology and chemistry, is
nearly impossible. But for one
student on this campus, Roger
Wilson, it doesn’t seem to be such
an impossible feat.

A Dean’s List student, Roger
does spend a lot of time studying, but not so much
that he isn’t able to par-
ticipate in other activities. He now

In all, Roger Wilson is the kind
of guy who is always on the go. He goes
to bed late and gets up early. But in
everywhere there is always time for the errands that make Roger
a nice guy to know.
Editorially Speaking

Extend A Hand

This Spring semester will be a very special one for Roger Williams College. One of the major reasons for this will be the arrival of up to 60 International students on campus—students from such far away places as Bangladesh, Liberia, and Iraq! They are coming to Bristol, Rhode Island, for an education.

For many of these young people, this is the first time they have ever been out of their country, and for almost all, it is their first visit to the United States. For them, this is a strange and frightening experience. Nearly everything they see is different from what they have known—from food to dress to basic customs.

Despite these differences, however, the underlying similarities are greater. Like us, these are young people who have left home to attend a place of learning. Like us, these are young people struggling with the problems of growing up. And like us, these are young people who need the hand of friendship extended to them.

As the residents of this college, it is our duty to extend that hand. We should be willing to give a little of ourselves, to make their stay just a little less difficult, and a little more enjoyable. We should be willing to do this not only for the good we can do ourselves, but for the good we can do others.

After all, it's not too radical a notion for someone from a different country is the next best thing to being there.

So the next time you see someone walking alone on the campus, looking slightly lost, walk up and introduce yourself—it will be more than worth the effort...for both of you.

Spend SAF Wisely

The Student Senate lobbied diligently to get the student activity fee increase referendum passed so that they could "benefit the students through student organizations and better social events." Now that the referendum has passed, we are confident that the Senate will justify the struggle of students and channel the additional money to constructive uses.

When budget times come in the Spring, the Senate should consider giving increased funds to clubs and organizations that have proven their worth through their activity on campus. If the funds go to that channel of student money, then we can get more out of the student for the school and the student.

The list of possible uses for the additional funds that must be found to work with is virtually endless. We are confident that this year's Senate will put the money to its best possible use.

EDITORIAL POLICY

The Quill, as the sole voice and means of community communication, reserves the right to express editorial opinion. Freedom of the press, as an expression of speech, is one of our most sacred rights.

Along with every right, however, must come a responsibility. Therefore, it is felt that a bond must be forged to state our policy on editorial policy. The following is our editorial policy:

1) Editorial opinions and only editorial opinions, shall appear on the editorial pages.
2) All editorial content shall be the responsibility of the Editorial Board of the Quill and therefore the opinion of the Quill.
3) Signed editorials and commentaries shall represent the opinion of the author only.
4) Although the Quill recognizes the obligation to use fair and responsible editorial judgement, under no circumstances should op-eds be ranted as fact.
5) The Quill recognizes the responsibility to print opposing view points as well as our own. Only signed columns should be regarded as official editorial policy. The following is our editorial policy:
6) The Quill, in an editorial policy, shall represent the opinion of the Editorial Board of the Quill and therefore the opinion of the Quill.
7) Signed editorials and commentaries shall represent the opinion of the author only.

A Different Perspective On Frats

Bad publicity is better than no publicity, they say in Hollywood. Case in point: the current Animal House mentality that has swept the land. The college's sales is polting plenty of movie tickets, record albums, posters, magazines and books. But it isn't doing much for the public image of education.

The sad thing is that the Toga Party craze and the mindless destruction that they wish to glorify was not born of student imagination; it came from professional publicity people selling the film 'Animal House.'

Letters

We Too Demand The Best

Dear Editor:

We too demand the best. Your full support of Acting Dean O'Connell extends beyond your editorial page, and beyond the facts. Just ask one of our students; number 14 was full of guts, information. How can a second story work when well-timed events, well written events, are being written about by college newspapers? Perhaps you can even come up with stories. Would you have to be a reporter to write evidence? Just look at the Quill. Does a well run dormitory lend itself to lawlessness amongst its inhabitants? If the dormitories are well run, why are some of these people who run them being fired, and some have even resigned? Why have they become so tame that some faculty members are complaining that their students aren't performing as well as they could? Could it be that the results of our own well run dormitories, vandalism, rampant destruction, alienation among students and an entire philosophy, run as best to drive us into every sense of the word? I see no reason why a well run dormitory, ranting, rampant destruction, alienation among students and an entire philosophy run as best as to drive us into every sense of the word. I see no reason why a well run dormitory, ranting, rampant destruction, alienation among students and an entire philosophy run as best as to drive us into every sense of the word.

Just the other night, I saw faculty members in our dorm, Joe Neuschutz and Kevin Jordan. Neuschutz was on the roof, telling students to leave. We also saw Neuschutz and Jordan, in a class at Aquidneck Hall. Neuschutz was on the phone, telling dorm students: something out of control and compassion, rather than force and intimidation. I have seen him in the dormitories on paper, up to two times. It is in this addition to his work with the Peer Counseling staff, a group in close contact with the dormitory problems.

Kevin Jordan, in his spare time, has set up an excellent weekly movie program at Aquidneck. Besides spending two nights a week for class there, he also spends a third movie night there. Ask anyone about Dr. Haber checking up on his ill students? This is a well known fact among Intro to Philosophy students.

Where is the student government's official statement on their support for Acting Dean O'Connell? Perhaps they are waiting to see and hear all of the candidates before making a decision. How can any student, Senator, Quill Staff or just an average student, have a chance to make up their own minds on the Dean of Students issue when only one side, the O'Connell side is presented?

Sincerely,
Robert M. Walker

Turn It Down

Dear Editor:

As Editor to RWC for the Spring Semester, I have one overriding hope: the next time I go to dinner, I won't be buried under the ultra-dubious assault of WROG, as has happened too many times. While I have nothing against eating with a little noise, when that little turns to a lot, I start to complain. So please, WROG, keep playing that song, but at civilized levels this semester.

My cars thank you.

Sincerely yours,
Jack Konner

Terrific Expose: Campus Smut

By Dave Williams

My editor gave me the assignment in the January issue. I read the terse instructions: "Find some smut in the library, and write a terrific expose."

"I'll get right on it," Chief said. I left the room at a dead run.

I went through the library door in a low crawl, the collar of my trench coat turned up, my hat pulled low over my eyes. I dashed between the shelves to a dark corner, and dived to the floor. I raised my head cautiously and looked around. No one had noticed.

I crawled down again and slipped past a few more, then cautiously sauntered over to the stairs. I began whistling "Dixie" as nonchalantly as possible. I went up the stairs with a limp, so people would think I was a cripple and avoid me. I made it to the top of the stairs safely.

Once upstairs I waited over at one of the double desks and sat down. Over on the other side I could see the top of the head of my contact, "Shallowthroat."

"Post," I said.

The head looked up. "Wanna see some dirty pictures?"

"Keep it down!" I hissed.

"Right," said Shallowthroat. "Let's go."

Shallowthroat was my secret contact in the library. He claimed to know the location of every bit of smut around. I had found him through a classified ad in the Quill. He first led me over to the art books. "You'll find what you're looking for here," he smirked.

I pulled a book out. It was titled Erna In Modern Art. I smiled at Shallowthroat and said, "Just what I'm looking for," I opened it up.

The first picture was two blue lines over a yellow dot. It was entitled "Eight Women in Bed.

"Take a look," I said. "Pretty Ethyl, huh?"

I closed the book. "Don't you have anything better?"

"Alright, alright," he said. "I have just the thing. It's called Erotica, written by Anina Nin. It's pornography she wrote for money."

"Let's go," I said.

After ten minutes of searching, he gave up. "It need be here, he whined.

"There must be something... I yelled.

He brightened up. "The marriage manual section! It's really great."

We arrived on the 10th section. He scanned the shelves, then pulled out a book. "Look at this, " he said happily.

The book opened to a picture section in the middle. There was a couple in bed. "This could be it," I said. I flipped back a few pages to the text.

"The following pictures are meant to suggest some possible sexual positions," it read. "Clothed, professional models posed for the photos."

"Wait a second!" I yelled. They had. They had something I wanted to see! I tried to get this smut? You call this filth? Is this trash? This couldn't be banned in this state...

I hung his head, "I'm sorry," he mumbled. "Never again."

I closed the book. "Thanks anyway."

"But..." I yelled. They had something I wanted to see! I wished I couldn't have seen it..."

"Let's go," I said.

I pulled the collar of my trench coat up further and pressed around the corner of the shelves. "Let's go!"

---

The Who Move to Celluloid

(DFS) - "There be rocks. These, too," says the lead manager of the British rock band The Who. "These rockers."

Curiously, are what will insure the success of the Who's upcoming movie Quadrophenia, which is based on their 1973 album of the same name.

Although album sales were at a more than three million copies, Curbi is, he says, the movie is expected to rival the success of the Who's first. movie Tommy. That movie, of course, was based on the rock opera written by Who guitarist Pete Townshend and starred lead singer Roger Daltrey.

While rumorist circulates that Who members are getting tired of making music, they don't appear to be tired of making movies. After Quadrophenia, the Who plans a science fiction movie based on their album "Who's Next."

Roger Daltrey also plans another appearance in a movie version of the book McVicar, in which he plays a supervillain who stages a sensational plot to overthrow the English public as a maximum security prison. The red line is now a password for a master's degree at the Sheffield College of Technology in England.

Currently, though, the filming of Quadrophenia is about to be wrapped up, reports Curbi, who also superproduced the public exhibition that will start next summer, after a debut at the Cannes Film Festival.

Quadrophenia, incidentally, is a noun meaning "an advanced state of schizophrenia." The movie, according to press reports, will portray the "violent mod- rocker youth conflicts of mid-sixties England."

Student Speaks About Iran

Behrouz Dadpour, a senior at Roger Williams College majoring in Civil Engineering Technology and a resident of Iran, is speaking to area similarities between Iran and the United States.

"I started Tommy, and starred lead Rotary Clubs in the top of the court in Seekonk. Arrangements are being made in the Top of the Court; fireworks will be used.

"I'm going to talk to the students, and they're going to have a meeting on Dadpour's talk.

"The Roger Williams College Student Government is publicizing his talk..."

"I'm going to talk to the students, and they're going to have a meeting on Dadpour's talk.

The Hawks of Roger Williams defeated the New England College Eagles on Jan. 9th by the score of 69 to 38. The amazing thing was that Roger Williams had only six men in uniform. Knowing they were thousands, the Hawks kept their composure and committed only nine personal fouls during the game. Roger Williams dominated the game from the very beginning. The Eagles led 1-4, scores of 6-8 and 15-2 before New England knew what hit them. Ed Randolph with 12 first half points led the early drive. Roger Williams continued their assault and led at half 29-13. Very little changed in the second half. Tony Gibbs and Paul Hunter found the hot hand and combined for 26 points to lead the Hawk attack. Randolph and center Mario Fiacco continued to dominate the boards on both ends of the court. Randolph had nine rebounds while Fiacco had eight.

The Hawks traveled to New York City in the 69th Army-NY, where the Hawks faced the Fighting Fighting Hawks of the Military Academy. The game was a one-sided affair, with Roger Williams winning 75-61.

Road Trip

The Hawks traveled to New York to play Baruch and John Jay. Roger Williams split with an even 1-1 record.

The Hawks first traveled to the 69th Army-NY, the home court of Baruch. The Hawk and the Hawks were not too much for the Hawks. This four men led the Hawks fast break to perfection. They exploded for 56 second half points and defeated the Hawks 129-73.

The second half saw a tight struggle. The game was in doubt due to a bad rebounding and a lack of 1,000 point forward Paul Atkinson. He scored eight second half points and only scored two in the first half. Effort from L.C. Washington, Ed Randolph prevented him from getting into scoring action. Ed Randolph had 12 points and Tony Gibbs helped propel the Hawks.

The Hawks had balanced scoring throughout. Four men including top scorer Paul Hunter found the hot hand and combined for 26 points. Paul Hunter with 14 points each. Tony Gibbs with 14, Randolph and Kevin Wynne countered with 14 and 10 respectively.

John Lynch with 17, Atkinson with 16, Atkinson with 15 and Paul Hunter with 15 each. Randolph and Kevin Wynne countered with 14 and 10 respectively.

The Hawks needed a balanced scoring group to counter the Hawks. With Mushrooms With Pepper

John Lynch with 17, Atkinson with 16, Atkinson with 15 and Paul Hunter with 15 each. Randolph and Kevin Wynne countered with 14 and 10 respectively.

The Hawks needed a balanced scoring group to counter the Hawks. After making a run to 29-13, the Hawks were led by Franklin Pierce. The story of the first half was the blazing shooting of Freshman, James Banks. He scored 20 straight points for Roger Williams. He scored every Hawk point beginning at 17 and ending at 37. His hot string kept Roger Williams from falling back more than the 44-40 halftime score.

The referees were inconsistent if not one-sided. Slaps could be heard from the scorers table that went unnoticed by the officials. At one point Kevin Wynne received a vicious elbow that drew blood and a black eye but a foul wasn't called.

Franklin Pierce did show some incredible talent. Larry Leach, the sixth leading scorer in division 3, led all scorers with 29. Greg Trozman, a truly great leader and scorer, finished with 22. Trozman, a Sophomore from the Bahamas, at one point made an incredible spalding two-handed dunk from the left side of the court.

Roger Williams was led by James Banks with a team high 32 points. Harvey Hamner, a great team player, finished with a team high-10 assist. steadied Ed Randolph after Kevin Wynne finished with 19 and 13 Roger Williams dropped to 6-7 while Franklin Pierce rose to 11-2.

Curry

Roger Williams next traveled to Curry College and came away with a 53-50 win. The win evened the Hawks record at 7-7 while Curry fell to a disappointing 3-9.

The Hawks were the standouts for Roger Williams. Wynne scored 16 in the second half and made a last second double figure.

Rizzini Reveals Almeida Status At Open Meeting

continued from page 1

Middle East, especially Iran. - Christina has set up his ESL Center in the far north end of the old dorm; formerly the apartment of the Dean of Students. Christina went on to say that the Center had three parts. First, to analyze the English skills of the new students, and help them improve, second, to help them become more acquainted, with RWC, both academically and socially; third, to give them insights into Bristol and American culture.

Middle East, especially Iran. - Christina has set up his ESL Center in the far north end of the old dorm; formerly the apartment of the Dean of Students. Christina went on to say that the Center had three parts. First, to analyze the English skills of the new students, and help them improve, second, to help them become more acquainted, with RWC, both academically and socially; third, to give them insights into Bristol and American culture.

Christina said he would like to set up an Open House in the near future to help the new students get acquainted with the college community. (See related articles.)

Robert Nemec, Dean of Admissions, said that RWC has received over 100 applications from potential students in 24 countries, who wish to attend RWC. Nemec said the goal of the school is to have five to six percent of the total student population foreign.

Also mentioned at the meeting by Rizzini was the parking situation on Old Ferry Road. Rizzini said that after receiving complaints from students, he urged the RWC community not to park on the road. The Open Meeting was attended by approximately 50 students, faculty, staff, and administration. (Open Meetings are held monthly in the Bay Room at 12:00, although Rizzini did mention the possibility that the next one might be held at 1:00pm.)

Howard Appointed New PR Man

Howard, a resident of Rumford, has served for the past seven and a half years as Director and General Manager for the East Providence POST and the Seekonk STAR newspapers.

President William H. Rizzini of Roger Williams College has announced the appointment of David W. Howard as Director of Public Relations at the college. Howard’s responsibilities at the college will include external public relations, coordination of advertising, college publications, and on-campus communications.

A graduate of Marian College, Bethlehem, Pa., he has been a reporter for the Allentown (Pa.) Press daily newspaper and Managing Editor and Director of Curriculum Publications, Inc., in Deep River, Conn. He served in the U.S. Army for three years, including a tour of duty in Vietnam.
